## BSI8001:2007 Interpretation and Appreciation One day workshop

### Programme

**Duration:** 9.00am – 4.30pm

**Aims:** This workshop is designed to provide an introduction and basic understanding of the Occupational Health and Safety Management Standard BS 18001:2007 for those new to the Standard or those who wish to refresh their knowledge and skills. It would provide the ideal grounding prior to attending our BS 18001:2007 Internal Auditor workshop.

**Objectives:** *At the end of the workshop delegates should be able to:*

- Clarify the term 'Health and Safety'
- Appreciate the ethos behind BS 18001:2007 and what the Standard aims to achieve
- Understand the links with other Standards such as ISO 9001:2000 and ISO 14001:2004
- Understand the requirements of the Standard and how the clauses interact
- Identify Health and Safety Hazards and Risks
- Understand how to handle Health and Safety legislation
- Prepare an implementation Action Plan
- Understand the structure of a typical documented Health and Safety Management System

**Content:**

- What is health and safety?
- Ethos behind the Standard – what the Standard aims to achieve
- What is a 'Management System'?
- The BS 18001:2007 framework
- Links with other Management Standards
- A process based approach
- OH&S Policy and Planning
  - Health and Safety Hazards and Risks
  - Legislation
- Implementation and Operation
- Checking and Corrective Action
- Management Review
- Implementation Action Planning
- What a documented Health and Safety Management System might look like
- Summary and close
